

Protect Your Mission:

**From Outdated Platforms to
Bulletproof Infrastructure**

<https://1zero.biz/>

info@1zero.biz

Is your vendor holding you hostage for minor website changes?

Tired of updates but dreading a costly site overhaul?

Don't settle for "It's ok"—you might be feeding a Zombie.

The Problem:

Is Your Website a "Zombie"?

Time and Cost Hostage

Are you spending \$1000+ a month on endless vendor changes, with days or weeks of wait time for small updates?

Business Paralysis

Non-technical teams are blocked from making simple content changes, hindering marketing and sales efforts.

Hidden Risks

You have unknown bugs, outdated plugins, and a platform that was not built for modern, bank-grade security.

Future-Proofing Failure

Your site isn't optimized for future needs like AI visibility, secure client portals, and essential SEO performance.

The Solution: "Clean Migration"

We don't just "reskin" your site.

We re-platform your business onto a bank-grade, closed ecosystem designed for performance. www.duda.co

The Solution: "Clean Migration"

Bulletproof Security

- ✓ No more plugin updates.
- ✓ No more security patches.
- ✓ Enterprise-grade hosting is included.

Speed by Design

- ✓ Google PageSpeed scores of 90+ out of the box.

Operational Simplicity

- ✓ A customized system engineered around your team's real-world processes.

Platform Data Migration

- ✓ We migrate your blogs, pages, and assets without losing SEO juice.

Your Migration project includes:

1.

Migration Project:

- Current State Report
- Replatform to Duda
- Weekly Cadence meetings

2.

Year 1 Duda Platform fees

3.

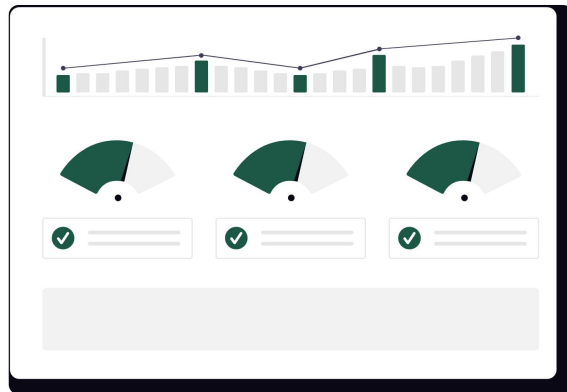

First year of 1zero monitoring and maintenance, with monthly 30 min Update meetings
